Dear Friends,

As you may have read or heard, yesterday we announced that Cosmo Tech had closed a successful [\\$21 million financing round](#). We are proud to have secured the support of Inven Capital, Cemag Invest, and C. Entrepreneurs, as well as for the continued support of our historical investors Aster, Sofimac Innovation, Credit Agricole Creation, Total Energy Ventures, and BNP Paribas Developpement.

We wanted to reach out to you personally and thank you for helping Cosmo Tech achieve this success. Every client, every partner, every conversation we have and all of the advice we receive has helped us to build our business. It is your support that has inspired us to build Cosmo Tech into one of France's most innovative software companies and a true game-changer for the world's most complex industries.

With this financing we will be able to invest in our team, accelerate the go-to-market for our software solutions, and continue our international expansion alongside our partners, with a strong focus on Europe. Thank you for being a part of our community and we look forward to celebrating more success with you in the months and years ahead.

Sincerely,

**Hugues de Bantel**

Co-founder and CEO

**Michel Morvan**

Co-founder and Executive Chairman

Industry expert **Pete Massey** calls it

**"...a radically new approach to digital simulation..."**

Get a complimentary copy of Massey's **Looking After Your Assets** from the most recent issue of **Network** magazine and learn how Cosmo Tech's software is changing the way electricity utilities make decisions.
