Just two weeks until EUW!

The Cosmo Tech team will be in Vienna to share our groundbreaking software solutions offering Augmented Intelligence for Asset Optimization in the utility sector.

Come and meet us at **our booth (B.m20)** and talk to the team behind the software that is changing the way Europe's largest utilities are managing their assets.

Want to organize your own private demonstration or meeting while in Vienna?

As a member of the French association **Think Smartgrids**, we are proud to invite you to join us on one of our smart grid thematic trails,

including a special focus this year on **Network Grid Asset Management**.

All trails will start at the **French Pavilion** (centrally located in **Hall A, G46**) and allows you to explore the theme of your choice with a representative from Think Smartgrids.

Register for the Think Smartgrids Trail

Industry expert **Pete Massey** calls it

"...a radically new approach to digital simulation..."

Get a complimentary copy of Massey's **Looking After Your Assets** as featured in **Network** magazine and learn how Cosmo Tech's software is changing the way electricity utilities make decisions.
