***Global Railway Review* talks to Cosmo Tech**

As part of its **Going Digital in Rail Week**, *Global Railway Review* interviewed Cosmo Tech VP Marketing Dylan Kissane.

Quizzed on the company, the feedback that clients were offering, and the changing digital demands of the rail sector, Kissane explained the transformation that the company is driving and the Augmented Intelligence approach that is helping Cosmo Tech win new customers.

"Unlike competing approaches, this model has been developed with attention to the complexity of the rail system..."

Learn how Cosmo Tech's software solution for rail network operators is changing the way decisions about investment and maintenance are

made for Europe's largest operators.
