## See you in Stavanger?

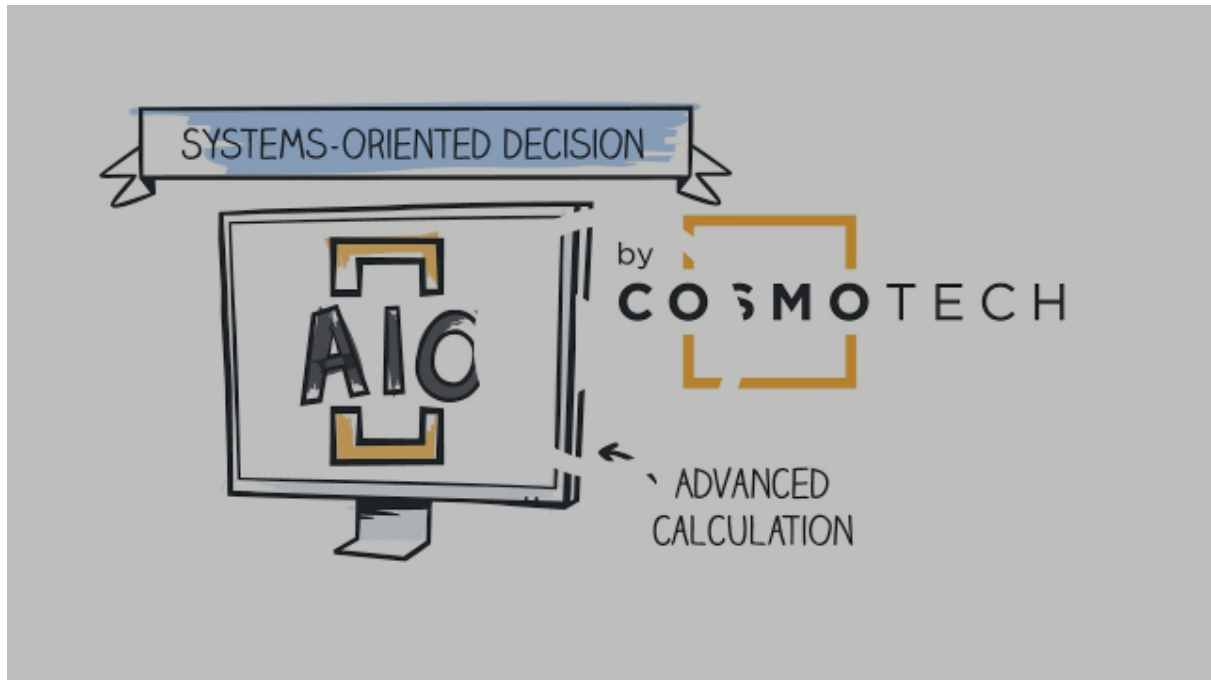

Cosmo Tech's CTO **Thomas Lacroix** will be heading to the **13th World Congress on Engineering Asset Management (WCEAM)** in Stavanger, Norway, and presenting Cosmo Tech's game-changing asset management software solution to one of the world's premier meetings of asset managers.

Thomas has been invited to present both a business case for the Cosmo Tech modeling and simulation approach as well as a technical paper demonstrating the significant ROI that our software has helped RTE, Europe's largest electricity TSO, generate.

## VIDEO: Cosmo Tech's Asset Management Solution

Click to check out Cosmo Tech's new asset management explainer video!

Industry expert **Pete Massey** calls it

**"...a radically new approach to digital simulation..."**

Get a complimentary copy of Massey's **Looking After Your Assets** from the most recent issue of **Network** magazine and learn how Cosmo Tech's software is changing the way electricity utilities make decisions.
