

# Bring clarity to the future with AI Simulation

Advanced decision intelligence solutions that empower businesses to make confident decisions and succeed in today's ever-changing world.

## Who We Are

Cosmo Tech empowers businesses with AI-driven simulation technology to make faster, smarter and more confident decisions. Our Decision Intelligence Simulation Solutions help organizations anticipate and simulate decision outcomes and interdependencies, uncovering unexpected and previously unmeasurable impacts across the enterprise at scale.

## Key Business Impacts

### Drive strategic clarity

Simulate scenarios to understand trade-offs and make confident decisions.

### Boost Efficiency & Cost Savings

Optimize processes, reduce waste, and improve resource allocation.

### Unify decision making

Align teams and break down silos for better enterprise-wide coordination.

### Stay agile in a changing world

Navigate market volatility and regulatory shifts with data-driven foresight.

*“Thanks to Cosmo Tech, our entire network is modeled. When the S&OP process gives a new direction, we can modify the digital twin to quickly get the best production scenario.”*

**Expert Leader Supply Chain,  
Global Automotive Manufacturer**

### Deep Industry Expertise

- Founded in 2010
- Global presence in Americas & EMEA
- Patented Modeling Technology
- Deep scientific and technical expertise in complex system simulation and AI
- Unique combination of process simulation with various AI techniques and industry knowledge.

### Industry Solutions

- Supply Chain Management
- Asset Management
- Finance
- Industry tailored models

### Market Recognition

- 2024 Gartner, Digital Twins of Organization
- Certified Microsoft Software for AI Manufacturing, Energy & Utility
- ISO 27001 Certification
